Day phone/email _____

Master gardener Industry professional

Please rank class choices 1 to 4 in each time period below.

9:15 a.m.

- A View to a Diagnosis: Turf and Herbaceous Plant Diagnostics
- Dr. Insect
- Fall Containers Royale
- Turf Wars: Never Say Never Again

1:15 p.m.

- A View to a Diagnosis: Woody Plants
- Weeds: License to Kill
- Sustain Another Day
- Fall Containers Royale

10:45 a.m.

- Sustain Another Day
- You Only Live Once, and Again
- For Your Soil Only
- The Garden with the Golden Touch

2:45 p.m.

- Organic Powers - Don't Lose Your Mojo
- Natives Are Forever
- The Water Isn't Enough
- Live and Let Bark

Please make your \$80 check payable to the **GreenCO Foundation** and mail it to:

GreenCO Foundation
6456 S. Niagara Ct.
Englewood, CO 80111

Phone # (303) 850-7587
No credit cards accepted

Registration Due July 6, 2007

Short Course class descriptions

A View to a Diagnosis: Turf & Herbaceous Plants

Join Mary & Laura as they provide tools for plant disease diagnosis. This hands-on session will focus on herbaceous plants. Presented by Mary Small, Jefferson County Plant Diagnostic Clinic and Laura Pottorff, Extension Commercial Greenhouse Specialist.

Dr. Insect

Take a walking tour of the CSU grounds to get a firsthand look at recognition and management of insect pests in Colorado. Presented by Whitney Cranshaw, Extension Professor & Entomology Specialist, Colorado State University.

Fall Containers Royale

Unravel the mysteries of planting attractive containers for fall. Leave with design tips, maintenance techniques, and plant varieties to withstand chilly Colorado days. Presented by Carol O'Meara, Extension Horticulture Entomologist and Alison Stoven, Extension Agent.

Turf Wars: Never Say Never Again

Turf alternatives for drought conditions, alkali grass, weed control, salt grass, turf and traffic. Presented by Tony Koski, Professor & Extension Turfgrass Specialist, Colorado State University.

Sustain Another Day

Sustainable landscaping is a new way of looking at appropriate landscape choices. Presented by Jennifer Bousselet, Horticulture Graduate Student, Colorado State University and Travis Beck, Eco-Savvy Design & Landscapes, LLC of Denver.

You Only Live Once, and Again

Visit the CSU Annual Flower Trial Garden and view first hand new annual & perennial plants. Presented by Jim Klett, Professor & Landscape Horticulturist, Colorado State University.

For Your Soil Only

The Soil Amendment Classification System will be demonstrated for use. Your instructors discuss how to choose the best soil amendment for your application while ensuring that salts do not build up and damage plant growth. Presented by Jessica Davis, Professor, Soil & Crop Sciences, Colorado State University.

The Garden with the Golden Touch

Discover how gardens and gardening improves health, teaches skills, and affects life satisfaction through horticultural therapy. Presented by Rebecca Haller, Horticultural Therapy Institute.

Weeds: License to Kill

Discussion on the top 10 invasive landscape weeds and how to control them. Presented by Irene Shonle, Gilpin County Extension Director and Curtis Utley, Extension Plant Clinic Research Associate.

Organic Powers - Don't Lose Your Mojo

Suggestions for mid-late summer organic vegetable gardening. Includes picking, planting, ideas for extending the harvest and an introduction to attracting beneficial insects to the garden. Presented by Joel Reich, Extension Horticulture Agent.

Natives Are Forever

As demand for natives developed, nurseries had to develop techniques to grow them that would survive the transplanting process and be aesthetically acceptable to the gardening public. Learn techniques for successfully growing and marketing of natives, as well as displaying them in gardens. Presented by Kelly Grummons from Timberline Gardens in Arvada.

The Water Isn't Enough

Colorado's unusual climate and the various uses of our resulting water resources will be discussed. Weather extremes resulting in droughts, floods and land uses will be addressed, as well as water quality concerns, water conservation and the impact of growth on future water supplies. Presented by Reagan Waskom, Extension Specialist, Research Scientist, & Colorado State University Water Center Director and Nolan Doesken, State Climatologist, Atmospheric Science, Colorado State University.

Live & Let Bark

Join Elizabeth from Paw Friendly Landscapes as she sniffs out great designs for your best friend. Elizabeth listens to the dogs by planning garden designs around their daily activities of running, digging and playing. Presented by Elizabeth Bublitz, Paw Friendly Landscapes of Golden.
